

Who Grows Your Food?

Dry Pond Farm • Madison County, NC

Dry Pond Farm, a small piece of bottomland, feels tucked away, far from everything. But it's because of the close community of growers and the pleasure of sharing their harvest with others that Mark and Delia farm here.

Following organic and permaculture ethics, they raise many heirloom vegetables, as well as heritage Tamworth pigs. "What comes from this farm, you're not likely to see elsewhere," Mark says.
