

Who Grows Your Flowers?

Fisher Branch Farm • Madison County, NC

Jenifer Miller grew up gardening and loving to grow flowers. She is in her seventh season growing for market on the family farm that she grew up on in the Grapevine community of Madison County. With the help of her sister Jesika, who also makes unique planters, Jenifer grows flower and vegetable nursery plants, specialty vegetable varieties, and, of course, beautiful cut flowers.

Jenifer and Jesika are committed to using growing techniques that support and encourage the continuous growth of a healthy farm ecosystem, which to them means using no chemicals or herbicides. Together they are rebuilding the soil of their family farm and producing flowers and vegetables of the highest quality.
