

Who Grows Your Food?

Palmer Ford Organics • Madison County, NC

What's the best part of farming? Will Osborne of Palmer Ford Organics has a simple answer: the best part about farming is the food! "There's nothing like it," says Will. "You walk out of your house, harvest your food, bring it home and enjoy it."

Those who eat Will's produce agree that it has unique freshness and flavor. Will doesn't give the credit to his organic techniques or 30 years of experience. He says the quality comes from the soil and the one-of-a-kind microclimate on his Madison County farmland.
