Farmers' Market Location/Site Assessment - Rating Summary

Enter ratings from individual Rating Sheets **Site / Location:** _____

Important note: rated elements are **not** of equal importance in terms of ranking potential locations/sites (e.g. picnic tables are not as important as customer parking) - assigning priorities is a subjective step required of each individual assessment

rating sheet names	**Vendor**								**Customer**									**Location**				
	accommodates target vendor count	allows for increase in vendor count	area for consistent booth size/spacing	space for vendor access, set-up, etc.	vendor parking at spaces (or nearby)	existing vendor shelters (or room for)	level surface for vending	access to electrical and water	allows for easy entrance and exit	open traffic flow, pedestrian & vehicle	parking equal to peak demand	allows for growth of customer parking	proximity of customer parking	provides handicapped parking & access	accessible by public transportation	amenities: restrooms, picnic tables, etc.	appeal: shade, landscaping, etc.	major road access	landmark recognition	visibility	neighborhood supportive of market use	notes:
